Dear Mr Marcos and Celso,

I've been informed that Kareena Beniwal has secured an internship with your organization, working in the data science domain. I recommend her for the summer internship at UFG, Brazil. Kareena is my student in the undergraduate batch of IIT Gandhinagar. I found her to be a creative and industrious student who showed a natural flair in tasks assigned to her. She has tried to integrate her knowledge of data analysis in all possible manner, in the projects and assignments given throughout the semester.

I understand that summer interns are responsible for researching novel topics with limited supervision or support. In my course, students were regularly tasked with tackling new and exotic legal topics, and collaboration with classmates to get a handle on challenging content.

I have no doubt that she will be successful in your summer program and offer my strong endorsement.

You are welcome to contact me if there is any other information that I can provide.

With best regards,  
N. Ramakrishnan
